

MURRAY WELL

Biography

... redefining the edges of the contemporary and the traditional ...

Murray Well is a new collaboration featuring musicians from Ireland, Spain and Norway. Their style is a broad pallet formed from these influences and their own musical journeys to date.

Elements of the Irish Tradition are fused with contemporary songwriting and a bespoke rhythm section that weaves seamlessly between the two worlds.

Strong lyrical imagery combined with traditional musical sensibility is what defines the **Murray Well** sound. Their first single 'The Nail', released September 2018 on the Natural5Four label, has it's own particular take on the UK's Brexit decision and showcases one of the band's strengths in addressing current European issues.

The band's experience and dedication to live performance combined with genuine on stage showmanship defines a wholly unique genre across the spectrum of New Folk.
