

J Eoin - 'Exiles' - Lyric Sheet

01 Mother Tongue

Drop the penny Change rolls round
Over here is where the wind blows
My brothers and my sisters say
Mother Tongue knows

Tell the story Change rolls round
Far from here is where the wind blows
My brothers and my sisters say
Mother Tongue knows

Who in the World has been taken from you?
Who in the World has been taken?

Move the mountain Change rolls round
Far from here is where the wind blows
My brothers and my sisters say
Mother Tongue knows

Who in the World has taken from you?
Who in the World has taken?

Drop the penny Change rolls round
Over here is where the wind blows
My brothers and my sisters say
Mother Tongue knows

02 The Deluge

When was the first time you felt you were someone special
When was the first time you felt you were standing up tall
Gather yourself and all who possess you
Hollow inside
The Deluge will come without warning

When was the first time you felt you were someone special
When was the first time you felt you were ready to fall
Gather yourself and all who possess you
Hollow inside
The Deluge will come without warning
Will come without warning

Head over heels
The Heroine kisses the Mouth of The Moon
She was there looking thin looking cold
Looking hungry and wild

When was the first time you felt you were someone special
When was the first time you felt you were nothing and all
Gather yourself and all who possess you
Hollow inside
The Deluge will come without warning
Will come without warning

Head over heels
The Heroine kisses the Mouth of The Moon
She was there looking thin looking cold
Looking hungry and wild

Head over heels
The Heroine swallows the Light from The Moon
She was there with the Angles so bright
Looking older and wise

Cad a dheanamid ann gan feasta
Ta deireadh na coillte ar lar

03 Drunken Jesus

Drunken Jesus was a friend of mine
Talk about it Take your time
One way One down
One way down

Perfect circles for a perfect world
Straight lines where the Earth is curved
So near So far
Room for one more inside
Remember me
Drunken Jesus was a friend of mine

Drunken Jesus was my favourite son
Talk about it Tell everyone
Some people Some say
Some people say

Vicious circles for a vicious world
Strange lines where the Earth has turned
So far So good
Room for one more inside
Remember me
Drunken Jesus was my favourite son

Drunken Jesus was a friend of mine
Talk about it Take your time
What will you grow up to be?
Drunken Jesus was a friend of mine

04 Exiles

I don't understand you
You say I never will
I find it hard to break through
The beating heart is still

Many arms surround us
Touched by every hand
Many arms have found us
Gathered where we stand

Come away
Leave this place forever
Exiles when we fly
Come away
Leave this place together
Exiles when we rise

I don't understand why
You say the things you do
I find it hard to follow
The spoken word is true

Others they surround us
Touched on every side
Others they have found us
Gathered where we lie

Come away
Leave this place forever
Exiles when we fly
Come away
Leave this place together
Exiles when we rise

05 Sean One Shoe

Ride on the far away ocean
Break on the city shore
Rise on the wind's wild notion
Dreamed by the open door

A far cry from this station
A place on the underground
Big men worn down Cash Nation
See you on the turnaround

Go home boys home Go home

Begin where you plan to leave from
Ghost with a hungry smile
Last breath on a cold glass frosting
Make yourself up in your own mind

From the side To the side On the inside
A spot Mister Anna found
No child is a child forever
See you on the turnaround

Go home boys home Go home

Sean One Shoe says he knows you
When I grew up the World got bigger too

Ride on the far away ocean
Break on the city shore
Rise on the wind's wild notion
Dreamed by the open door

Sean One Shoe says he knows you

06 Rictus

Out of my head Into the light
Show them yourself
Out of my mind Into the light
Show them yourself
Caught in a Rictus Out of my head
Show them yourself
Caught in a Rictus Out of my mind
Show them yourself Show them Out of my life

Same old story Set the moment
Did you see them?
Same old story Slip the moment
Did you see them?
Caught in a Rictus Set the moment
Did you see them?
Caught in a Rictus Slip the moment
Did you see them? Did you? Same old story

Steal from thunder One together
Tell them nothing
Steal from thunder All together
Tell them nothing
Caught in a Rictus One together
Tell them nothing
Caught in a Rictus All together
Tell them nothing Tell them Steal from thunder

Out of my head Into the light
Show them yourself
Out of my mind Into the light
Show them yourself
Caught in a Rictus Out of my head
Show them yourself
Caught in a Rictus Out of my mind
Show them yourself Show them Out of my life

07 I'm No Angel

I'm no Angel Some men able
Come easy Please no one at all
If you love me If you want me
I'll be waiting Please no one at all

I'm no Angel Fall down cradle
Dream easy Tell no one at all
If you love me If you need me
I'll be waiting Tell no one at all

I'm no Angel Good men able
Go easy Please no one at all
If you love me If you want me
I'll be waiting Please no one at all

If you love me If you lead me
I'll be waiting Please no one at all

I'm no Angel Some men able
Come easy Please no one at all
If you love me If you want me
I'll be waiting Please no one at all

If you love me I'll be waiting
I'm no Angel

08 Captain Black

One more call before morning
One last call late at night
In the back of the head
Outside the window at zero approaching
Straight through with no time to think
Less time to pray
Over the rooftops we jump to the warning
Near empty streets in direct line of fire
It takes a bare moment to kill your opponent
Remember that Captain Black said

Inside four walls safe as the houses feel
Watching the walls and yourself as your own refugee
Outside the window at zero approaching
Straight through with no time to think
Less time to pray
Cover your eyes and your ears with the Red Hand
Only our rivers and bloodstreams run free
It takes a bare moment to kill your opponent
Remember that Captain Black said

Talk at the bar for the rest of the miracle
Talk among friends and your enemy wishes you well
Outside the window at zero approaching
Straight through with no time to think
Less time to pray
Make no mistake We all stand on the wrong side
Blank as a stare Open wide with the fright
It takes a bare moment to kill your opponent
Remember that Captain Black said

09 I Could Believe

I could believe
Anything you told me
I could believe
Anything you say is true
I'll take my time
I'll think this whole thing over
I could believe
Anything of you

Losing my way
No sense of direction
Losing my way
I could stumble and fall
As time goes by
We no longer know for certain
Losing my way
In the light of it all

I could believe
Anything you told me
I could believe
Anything you say is true
I'll take my time
I'll think this whole thing over
I could believe
Anything of you

10 Somebody Cares

If you see her and she's blue
If you see her heart is true
Tell her Somebody cares

If you ever hear her say
Too many hours in one day
Tell her Somebody cares

She knows what goes
She counts the thorns on every rose
She knows what's worth waiting for

If you want to see her smile
See the love light in her eyes
Tell her Somebody cares

She knows what goes
She counts the thorns on every rose
She knows what's worth waiting for

If you see her and she's blue
If you see her heart is true
Tell her Somebody cares

11 Claws

Walk in shallow streams
As evening falls
Across these stones
Water breaks uneven

Listen as the wind drops
Close to my ear
Take these claws
Wrap your love around them

Now the barriers
Are common ground
Free up the chains
The walls are silent

Lead the way
We are two from here
Where you go
I will follow

I was like you were
I was like you were now

12 Heaven She Said

This is a happy house
We see ourselves in those who come to play
So happy here
We see ourselves in those who come to stay

Two boys in ecstasy
One to one and one of them is me
And only you
Take me but don't take my love for real
I hide behind the way you feel

This is a happy house
We see ourselves in those who come to play
So happy here
We see ourselves in those who come to stay

Two boys in later years
Lost for words and fighting back the tears
And all for you
Take me but don't take my love for free
We see the same things differently

This is a happy house
We see ourselves in those who come to play
So happy here
We see ourselves in those who come to stay

Heaven she said is just one breath away
Heaven she said is just one breath
Just one breath
One breath away

I love you in a special way
