

## *JEoin - 'Leyden' - Lyric Sheet*

### 01 Sean One Shoe ('I'm No Angel' 1994)

Ride on the far away ocean  
Break on the city shore  
Rise on the wind's wild notion  
Dreamed by the open door

A far cry from this station  
A place on the underground  
Big men worn down Cash Nation  
See you on the turnaround

Go home boys home Go home

Begin where you plan to leave from  
Ghost with a hungry smile  
Last breath on a cold glass frosting  
Make yourself up in your own mind

From the side To the side On the inside  
A spot Mister Anna found  
No child is a child forever  
See you on the turnaround

Go home boys home Go home

Sean One Shoe says he knows you  
When I grew up the World got bigger too

Ride on the far away ocean  
Break on the city shore  
Rise on the wind's wild notion  
Dreamed by the open door

Sean One Shoe says he knows you

## 02 Hungry Hill ('I'm No Angel' 1994)

London bus pass on the table  
Yellow brolly by the door  
People say they will  
We all live on Hungry Hill

Unmarked cars on every corner  
Killer rainbows in the street  
People say they will  
We all live on Hungry Hill

London whitewash Daily paper  
Blue transparent window panes  
People say they will  
We all live on Hungry Hill

Meet the man who sells the flavour  
Ice cream Smack scream Take away  
People say they will  
We all live on Hungry Hill

London black cab Engine running  
Sleeping dogs Lay lady lie  
People say they will  
We all live on Hungry Hill

Home is where the broken heart is  
Everything you do is right  
People say they will  
We all live on Hungry Hill

London bus pass on the table  
Yellow brolly by the door  
People say they will  
We all live on Hungry Hill

People always will  
We all live on Hungry Hill

### 03 I'm No Angel ('I'm No Angel' 1994)

I'm no Angel  
Some men able  
Come easy  
Please no one at all  
If you love me  
If you want me  
I'll be waiting  
Please no one at all

I'm no Angel  
Fall down cradle  
Dream easy  
Tell no one at all  
If you love me  
If you need me  
I'll be waiting  
Tell no one at all

I'm no Angel  
Good men able  
Go easy  
Please no one at all  
If you love me  
If you want me  
I'll be waiting  
Please no one at all

If you love me  
If you lead me  
I'll be waiting  
Please no one at all

I'm no Angel

## 04 Life Story ('I'm No Angel' 1994)

If I told you my life story  
If I told you not to worry  
If I said Love is for the taking  
Hearts are for the breaking through  
Better to be safe than sorry

If I told you my life story  
If I told you not to hurry  
If I said Love is everlasting  
Hearts are for the passing through  
Let the whole world come in glory

I thought I would know for sure by now  
I thought I would be with you by now  
Diane is the moon she said

If I told you my life story  
If I told you not to worry  
If I said Love is for the taking  
Hearts are for the breaking through  
Better to be safe than sorry

I thought I would know for sure by now  
I thought I would be with you by now  
Diane is the moon she said

## 05 Amanda Barefoot ('I'm No Angel' 1994)

Happy has a silver gun he holds up to his head  
He says I wish I was a sinner  
Living in a castle dark with the things nobody said  
We could all be good time sinners  
The light began to fall under a bridge down by the river  
I heard him talk about the girl inside the wall  
It was the source of my obsession

Happy doesn't see you when he looks at you that way  
He feels the whole world is his prison  
Happy likes to please you when he comes around to say  
The best of friends in a new position  
The stuff that makes up dreams through the fabric at the seams  
Sweating in an old skin The desert sand is dry  
Amanda Barefoot was my reason

Happy doesn't see you when he looks at you that way  
The closing door is a mystery open  
Happy likes to tease you when he comes around to play  
Hiding blue raindrops in the ocean  
The soft room near to sleep where the lines divide and meet  
Temper the attraction Mother the excess  
Amanda Barefoot was my treason

Happy has a silver bullet he keeps under his bed  
He says I wish I was a winner  
Living in a castle dark with the things nobody said  
We could all be big time winners  
The light began to fall under a bridge down by the river  
I heard him talk about the girl inside the wall  
It was the source of my obsession

I watched a white dove sail I heard a woman call  
The night was dark and the story ended

## 06 Heaven She Said ('I'm No Angel' 1994)

This is a happy house  
We see ourselves in those who come to play  
So happy here  
We see ourselves in those who come to stay

Two boys in ecstasy  
One to one and one of them is me and only you  
Take me but don't take my love for real  
I hide behind the way you feel

This is a happy house  
We see ourselves In those who come to play  
So happy here  
We see ourselves in those who come to stay

Two boys in later years  
Lost for words and fighting back the tears and all for you  
Take me but don't take my love for free  
We see the same things differently

This is a happy house  
We see ourselves in those who come to play  
So happy here  
We see ourselves in those who come to stay

Heaven she said is just one breath away  
Heaven she said is just one breath  
Just one breath  
One breath away

This is a happy house  
We see ourselves in those who come to play  
So happy here  
We see ourselves in those who come to stay

I love you in a special way

## 07 Claws ('Claws' 1997)

Walk in shallow streams  
As evening falls  
Across these stones  
Water breaks uneven

Listen as the wind drops  
Close to my ear  
Take these claws  
Wrap your love around them

Now the barriers  
Are common ground  
Free up the chains  
The walls are silent

Lead the way  
We are two from here  
Where you go  
I will follow

I was like you were  
I was like you were now

## 08 Rictus ('Claws' 1997)

Out of my head Into the light  
Show them yourself  
Out of my mind Into the light  
Show them yourself  
Caught in a Rictus Out of my head  
Show them yourself  
Caught in a Rictus Out of my mind  
Show them yourself Show them Out of my life

Same old story Set the moment  
Did you see them?  
Same old story Slip the moment  
Did you see them?  
Caught in a Rictus Set the moment  
Did you see them?  
Caught in a Rictus Slip the moment  
Did you see them? Did you? Same old story

Steal from thunder One together  
Tell them nothing  
Steal from thunder All together  
Tell them nothing  
Caught in a Rictus One together  
Tell them nothing  
Caught in a Rictus All together  
Tell them nothing Tell them Steal from thunder

Out of my head Into the light  
Show them yourself  
Out of my mind Into the light  
Show them yourself  
Caught in a Rictus Out of my head  
Show them yourself  
Caught in a Rictus Out of my mind  
Show them yourself Show them Out of my life

## 09 Mother Tongue ('Claws' 1997)

Drop the penny Change rolls round  
Over here is where the wind blows  
My brothers and my sisters say  
Mother Tongue knows

Tell the story Change rolls round  
Far from here is where the wind blows  
My brothers and my sisters say  
Mother Tongue knows

Who in the World has been taken from you?  
Who in the World has been taken?

Move the mountain Change rolls round  
Far from here is where the wind blows  
My brothers and my sisters say  
Mother Tongue knows

Who in the World has taken from you?  
Who in the World has taken?

Drop the penny Change rolls round  
Over here is where the wind blows  
My brothers and my sisters say  
Mother Tongue knows

## 10 Slow China ('Claws' 1997)

I sent you a letter  
A plain white paper note  
I showed you a picture  
Slow China in a boat  
I think about it all the time  
You are the first thing on my mind

I will no longer  
Pour water on the fire  
Burn the green wood  
Slow China My desire  
I think about it all the time  
You are the first thing on my mind

I say I love you  
The whole world listens  
I say I love you  
The whole world knows  
When we come closer  
There is no hiding  
When we come closer  
There is no hiding near  
Slow China

I was running  
Through the stations under stone  
Draw my own lines  
Slow China Half way home  
I think about it all the time  
You are the first thing on my mind

I say I love you  
The whole world listens  
I say I love you  
The whole world knows  
When we come closer  
There is no hiding  
When we come closer  
There is no hiding near  
Slow China here

## 11 Eve of Solution ('Eve Of Solution' 1999)

Temperature is rising  
Fire went down to Hell  
Four came back this morning  
The Truth to tell

Avalon has fallen  
To the wicked and their wives  
Promises were broken  
Hollow victor lies

Temperature is rising  
Fire went down to Hell  
Four came back this morning  
The Truth to tell

Avalon has fallen  
To the wicked and their wives  
Promises were broken  
Least among you rise

Eve of Solution  
Mister Wise

Temperature is rising  
Fire went down to Hell  
Four came back this morning  
The Truth to tell

Avalon has fallen  
To the wicked and their wives  
Promises were broken  
Open up your eyes

Eve of Solution  
Mister Wise

## 12 Call me down ('Eve Of Solution' 1999)

I dreamed I was flying  
Up in the air and flying  
Call me down

Something you were saying  
I thought you were saying  
Call me down

I am taken  
Flying free  
I am taken

I dreamed I was falling  
Out of the sky and falling  
Call me down

Something you were saying  
I thought you were saying  
Call me down

I am taken  
Falling free  
I am taken

Open your eyes I see you  
All The World believes you  
Call me down

I am taken  
Flying free  
I am taken  
Falling free  
I am taken
